

Vendor Registration

All active vendors are required to register with VendorProof. This registration is required to keep your active status with all hospitals.

Pursuant to our commitment to compliance with all laws, rules, and regulations, we require one representative from each vendor organization to enroll in VendorProof to meet several federal requirements.

What does VendorProof do?

VendorProof collects and verifies data necessary to meet certain Medicare Advantage Plan Compliance Program requirements.

The information collected will facilitate mandatory federal and state sanction screenings.

Finally, the data will assist with determining whether additional review may be necessary to ensure compliance with HIPAA and other privacy and security regulations.

You should receive an email or letter with more information and VendorProof registration instructions. If you have not yet received information from VendorProof, please contact support@vendorproof.com or visit www.vendorproof.com.
